EDUCATION

Mindoro State University

Bachelor of Science in Information Technology

Labasan, Bongabong Oriental Mindoro

June 2021 - July 2025

WORK EXPERIENCE

WoodteqPH Prime Corporation.,

Software Developer

343 West Service Road, Parañaque

April 2025 - April 2026

- Developed and maintained business systems using AI-powered development tools such as Lovable and KiloCode, including a Quote Management System for furniture products that streamlined quotation processing and generated Bills of Quantity of Materials (BOQM) more efficiently.
- Designed and developed an advanced Inventory Management System using Lovable and KiloCode to monitor stock levels, track materials, and improve inventory accuracy and operational efficiency.
- Utilized Supabase as the database backend for data storage, management, and real-time system functionality.
- Provided technical support and resolved software-related issues while collaborating with cross-functional teams to gather requirements and align solutions with business needs.
- Assisted in implementing system enhancements and new features to support business process improvements and operational workflows.

Phosclay Cosmetics Products Trading (OJT),

Associate Software Engineer

San Dionisio Dasmaringas, Cavite

February 2025 - May 2025

- Provided technical support and resolved software-related issues, collaborating with cross-functional teams to gather requirements and ensure software solutions aligned with business needs.
- Documented code, user manuals, and technical specifications to enhance team understanding of software functionalities.
- Assisted in system enhancements and implemented new features based on user business process improvements.
- Performed data analysis and troubleshooting within SAP systems to identify issues and support efficient system performance.

Freelancer,

Web & App Developer

Remote

June 2022 - December 2024

- I provided end-to-end web development and technical support services for clients across different industries, focusing on building functional, user-friendly, and goal-oriented websites and systems.
- Communicated directly with clients to gather requirements, provide updates, and ensure project alignment.
- Debugged, tested, and optimized website features to improve performance and usability.
- Resolved technical issues and provided ongoing support to ensure smooth system operation.
- Prepared basic technical documentation and user guides for easier maintenance and handover

Edison G. Lee Trading.,
Technical Support

Gloria Oriental Mindoro
January 2021 - December 2021

- Performed regular system maintenance to ensure smooth, stable, and efficient daily business operations.
- Monitored, troubleshoot, and resolved technical issues to minimize system downtime and prevent recurring errors.
- Conducted testing and basic debugging procedures to maintain overall system performance, accuracy, and reliability.
- Encoded, updated, and managed data accurately within the system and organized company records consistently.
- Maintained data integrity by carefully verifying, reviewing, and validating all encoded information and entries.
- Assisted in organizing, compiling, and preparing detailed reports based on system-generated and recorded data.
- Created simple documentation to support system processes and data handling procedures.

Yohan Digital Advertising Services.,
Graphic Designer

Pinamalayan Oriental Mindoro
March 2019 - November 2020

- Designed creative and visually appealing layouts for tarpaulins, signage, banners, and other large-format print materials.
- Created custom t-shirt print designs based on client requirements, ensuring high-quality and print-ready outputs.
- Collaborated with clients to understand design needs, branding guidelines, and project objectives for advertising materials.
- Prepared and optimized design files for printing, ensuring correct dimensions, color settings, and resolution standards.
- Revised and enhanced design concepts based on client feedback to achieve desired visual impact and satisfaction.
- Managed multiple design projects simultaneously while meeting deadlines and maintaining consistent quality standards.

ACHIEVEMENTS

Cyber Threat Management – Cisco.,
[Certificate](#)

December 2024
